Colonial Lives Richard E. Boyer 2000 Colonial Lives offers a rich variety of archival documents in translation which bring to life the political and economic workings of Latin American colonies during 300 years of Spanish rule, as well as the day-to-day lives of the colonies' inhabitants. Intended to complement textbooks such as Burkholder and Johnson's Colonial Latin America by presenting students with primary sources -- the raw materials on which the facts in other textbooks are based -- this reader strives to illustrate the impact of issues such as race, class, gender, sexuality, culture and religion in the daily lives of both natives and colonists alike. The concerns, struggles and perspectives of the inhabitants of colonial Latin America are reflected in transcripts of civil and criminal court cases, administrative reviews, ecclesiastical investigations, Inquisition trials, wills, and letters the editors have included in this reader. Each document is prefaced by an introduction that places it in the social and political context of the period. The book also includes a glossary of terms and lists of suggested further readings. Most

uniquely, the book offers helpful thematic cross-referencing sections and an index of themes which allow instructors to easily adapt the book to their courses and to assign readings according to the criteria of their own specific curriculums.

Hawaiki Rising Sam Low 2019-11-30 Attuned to a world of natural signs—the stars, the winds, the curl of ocean swells—Polynesian explorers navigated for thousands of miles without charts or instruments. They sailed against prevailing winds and currents aboard powerful double canoes to settle the vast Pacific Ocean. And they did this when Greek mariners still hugged the coast of an inland sea, and Europe was populated by stone-age farmers. Yet by the turn of the twentieth century, this story had been lost and Polynesians had become an oppressed minority in their own land. Then, in 1975, a replica of an ancient Hawaiian canoe—H?k?le'a—was launched to sail the ancient star paths, and help Hawaiians reclaim pride in the accomplishments of their ancestors. Hawaiki Rising tells this story in the words of the men and women who created and sailed aboard H?k?le'a. They speak of growing up at a time when their Hawaiian culture was in danger of extinction; of their vision of sailing ancestral sea-routes; and of the heartbreaking loss of Eddie Aikau in a courageous effort to save his crewmates when H?k?le'a capsized in a raging storm. We join a young Hawaiian, Nainoa Thompson, as he rediscovers the ancient star signs that guided his ancestors, navigates H?k?le'a to Tahiti, and

becomes the first Hawaiian to find distant landfall without charts or instruments in a thousand years. *Hawaiki Rising* is the saga of an astonishing revival of indigenous culture by voyagers who took hold of the old story and sailed deep into their ancestral past.

Prince2 Foundation Training Manual Van Haren Publishing 2017-01-15 Thank you for reading our PRINCE2 Foundation Training Manual. The main objective of this book is to provide an easy-to-read and easy-to-understand PRINCE2(R) Foundation training manual. The official PRINCE2 manual, "Managing Successful Projects with PRINCE2," is an excellent reference manual, but it is not a training manual and should not be used as one, as it is very difficult to comprehend and understand if you are new to project management. The official PRINCE2 manual also covers the complete Practitioner Syllabus, and it's impossible to know which parts are just focused on the PRINCE2 Foundation syllabus, so you have to read everything, which is not good if you are just studying for the foundation exam. Henceforth, this book is meant to be (and is) an easy introduction to PRINCE2 based on the Foundation syllabus, and it's quickly becoming the most read book for people

wishing to learn about PRINCE2 and prepare for the foundation exam.

Making Cars at Cowley Gillian Bardsley 2013-05-01 In 1913 an ambitious young businessman named William Morris converted a derelict military college on the outskirts of Oxford into an assembly hall for motor vehicles. He thus opened the first chapter in one of the most extraordinary success stories of the British motor industry, becoming Lord Nuffield and a multi-millionaire in the process. From Morris Motors and Pressed Steel, via the British Motor Corporation and British Leyland to its role as part of BMW and their successful manufacture of the new Mini, car manufacture at Cowley has been a

significant player. Though the old factory chimneys have given way to more modern developments, Oxford today would be a very different place without its influence. Most of the photographic material in this book is taken from the comprehensive archive collections of the British Motor Industry Heritage Trust, located at the Heritage Motor Centre, Gaydon. Now in this revised and fully updated edition, new illustrations and text seek to show further how important Morris was to Cowley.

Disability and Society Renu Addlakha 2009-01-01 In the 1980 s disabled scholars in the West began to develop a radical critique of biomedical conceptions of disability that focused exclusively on the individual body and its limitations. They also exposed the failure of the social sciences to critically address what this medical understanding of disability meant, and what it excluded from consideration. Out of their work emerged what is generally called the social model of disability. Over the past twenty years this perspective has generated a substantial literature, much of it making use of

the methods of qualitative social research. Narratives and life histories produced by disabled people themselves have a central place in the Disability Studies literature. This work has major implications for professionals in the rehabilitation field, for the social sciences, and the ultimate goal, for the full integration of disabled people into society. However almost all of it focuses on the traditions, practices and dilemmas of northern countries. In India, in Thailand and in most of Asia, the field of disability continues to be dominated by the biomedical model. Thus, disability is understood as an incurable chronic illness and, increasingly, an object for medical diagnosis and investigation. Despite many positive developments, little convergence between disability politics and practice on the one hand, and sociology and anthropology on the other has taken place. Surveying the international literature on disability and rehabilitation, it becomes apparent that many studies carried out in Asian countries are designed to measure the extent of (unmet) need or the impact of services or attitudes to disabled people. Virtually no studies make use of the innovative, usually qualitative and often holistic approaches developed in Western countries over the past twenty years. This book introduces readers in Asian countries to the recent disability literature of the West. The editors hope

that it will inspire new thinking among social scientist, rehabilitation professionals and organizations of disabled people themselves that could further the empowerment of people with disabilities.

Blood-Kissed Sky J. A. London 2012-12-26 The second book in a romantic and drama-packed trilogy perfect for fans of Rachel Vincent, Julie Kagawa, and Alyson Noel. Lusciously romantic and full of action-packed drama, readers will be swept away by this thrilling novel. Dawn Montgomery knows that monsters really do come out at night—after all, they are her job. It's just after the thirty-year war between vampires and humans, and as an ambassador between the two sides (a role she inherited when her parents were killed), Dawn quickly learns that balancing schoolwork, teen life, and the requests of Lord Valentine, the most frightening vampire in the region, isn't easy. There's nowhere left to hide. I thought vampires were our enemies—they controlled our lives, isolated our cities, and demanded our blood—until I met Victor. With Victor taking over as the new Lord Valentine, things were supposed to get better. Instead, they're worse than ever. Day Walkers, a new breed of vampires who can walk in the sun, are terrorizing the city. Blood supplies are low, and if Victor's vampires don't get enough, they will become infected with

the Thirst—a disease that will turn them into mindless killers. To stop it, I must journey across the desolate wasteland to the very place where the sickness began. I can only hope that the answers that await me are enough to save us all...before it's too late.

You Gotta Be Kidding! Workman Publishing 2020-07-14 Gross, embarrassing, and just plain silly questions about boogers, bugs, smelly socks, itchy scabs, and more! Adapted from the hugely popular board game, this interactive and completely engaging book serves up hundreds of bizarre, embarrassing, sometimes ethical and sometimes stomach-churning dilemmas that kids will love to pose to their friends and siblings, whether in the backseat, on a sleepover, at a party, on a rainy day, or during a lull in the lunchroom (if you dare). Ponder the icky: Would you rather eat 10 pounds of cheese -OR- a bucket of peanut butter—with nothing to drink? The exponentially icky: Would you rather drink liquid found leaking from a garbage can -OR- chew on a hairy clump found between the cushions of an old couch? The fantastic: Would you rather be able to talk with all animals -OR- be able to understand all languages? The priority-testing: As a soccer player, would you rather mess up and score a goal for the other team but still have your team win -OR- play your

best game ever even though your team loses? And the hair-raising: Would you rather swim across a river that is filled with crocodiles -OR- spend the night on an island where man-eating tigers live? Fascinating sidebars throughout are filled with interesting ancillary information—the nature of drool, left-handedness vs. right-handedness, what’s dangerously filthy and what’s just gross, why we blush when we’re embarrassed—so kids can learn something as they laugh!

Structural Transformation in South Africa Antonio Andreoni 2021-07-15 Taking South Africa as an important case study of the challenges of structural transformation, Structural Transformation in South Africa offers a new micro-meso level framework and evidence linking country-specific and global dynamics of change, with a focus on the current challenges and opportunities faced by middle-income countries. Detailed analyses of industry groupings and interests in South Africa reveal the complex set of interlocking country-specific factors which have hampered structural transformation over several decades, but also the emerging productive areas and opportunities for structural change. The structural transformation trajectory of South Africa presents a unique country case, given its industrial structure, concentration and highly internationalized economy, as well as the objective of black economic empowerment. Structural Transformation in South Africa links these micro-meso dynamics to global forces driving economic, institutional and social change. This include digital industrialization, global value chain consolidation,

financialization, environmental and other sustainability challenges, which are reshaping structural transformation dynamics across middle-income countries like South Africa. While these new drivers of change are disrupting existing industries and interests in some areas, in others they are reinforcing existing trends and configurations of power. The book analyses the ways in which both the domestic and global drivers of structural transformation shape-and, in some cases, are shaped by-a country's political settlement and its evolution. By focusing on the political economy of structural transformation, the book disentangles the specific dynamics underlying the South African experience of the middle-income country conundrum. In so doing, it brings to light the broader challenges faced by similar countries in achieving structural transformation via industrial policies.
