Classic Farm Tractors Robert N. Pripps 2014-04-15 DIV From iconic stalwarts to more eccentric entries into the ag industry, this colorful, fun, and fact-filled book profiles scores of farm tractor classics from the twentieth century. Veteran tractor author Robert Pripps tackles each model with aplomb, offering concise descriptions and histories along with informative specification charts that give the lowdown on all-important considerations like horsepower ratings, engine sizes, weights, fuel types, and more. Illustrated with color photography by Ralph Sanders and Andrew Morland, Classic Farm Tractors is arranged chronologically to give a better sense of farm tractor evolution and includes all of the usual suspects—from the likes of John Deere, Farmall, Fordson and Ford, Case, Allis-Chalmers, Minneapolis-Moline, Best, Caterpillar, Massey-Harris, Massey-Ferguson, Oliver, Rumely, and Hart-Parr—as well as lesser-known and forgotten marques manufactured throughout the United States and Canada. In addition, Pripps includes a generous selection of farm tractors from Europe, including models from Fiat, Lanz, Le Percheron, Renault, Deutz, and more. Classic Farm Tractors is an entertaining look at the tractors we all know and love as well as the oddball tractors that fans find fascinating. With well over 200 photographs of more than 100 years of tractors from all over North America and Europe it's the perfect gift for tractor lovers. /div

Capitalist Nigger Chika Onyeani 2012-03-27 Capitalist Nigger is an explosive and jarring indictment of the black race. The book asserts that the Negroid race, as naturally endowed as any other, is culpably a non-productive race, a consumer race that depends on other communities for its culture, its language, its feeding and its clothing. Despite enormous natural resources, blacks are economic slaves because they lack the 'devil-may-care' attitude and the 'killer instinct' of the Caucasian, as well as the spider web mentality of the Asian. A Capitalist Nigger must embody ruthlessness in pursuit of excellence in his drive towards achieving the goal of becoming an economic warrior. In putting forward the idea of the Capitalist Nigger, Chika Onyeani charts a road to success whereby black economic warriors employ the 'Spider Web Doctrine' – discipline, self-reliance, ruthlessness – to escape from their victim mentality. Born in Nigeria, Chika Onyeani is a journalist, editor and former diplomat.

The Woodwright's Workbook Roy Underhill 2012-01-01 Roy Underhill is America's best-known master of traditional woodcraft. Creator of the popular PBS series The Woodwright's Shop, Roy has inspired millions—from professional craftsman to armchair woodworker—with his talent, knowledge, and enthusiasm. Roy returns here with his third book. The Woodwright's Workbook features step-by-step instructions for a selection of projects from his television series. All projects are illustrated with photographs and measured drawings.

Included here are plans for tool chests, workbenches, lathes, and historical reproductions of items for the home: a six-board chest, rustic chairs with cattail seats, a churn for the kitchen, and the Rittenhouse hygrometer. Roy also explores building barns, forges, boats, and even colonial fortresses. A wonderful feature of this book is Roy's own translation of the humorous fifteenth-century poem The Debate of the Carpenter's Tools. He also provides a fascinating and useful 'field guide' to American tool marks that shows how to identify the specific tool used by the marks it left. Whether Roy is an old friend or a new acquaintance, let him be your guide to the world of traditional woodworking.

Life Cycle Design Siegfried Behrendt 2012-12-06 Small and medium-sized enterprises can serve as promising cradles for challenging ideas and pioneering initiatives. That is exactly what is required in order to make progress towards sustainable levels and patterns of production and consumption. Of all the continents of the world, Europe is most likely to lead the way towards a more sustainable relation with the environment. Having been the cradle of the industrialized world as we know it today, Europe again will lead the way in the journey of discovery to sustainable industrial practice, that is, if suitable conditions exist, and engaged and motivated entrepreneurs take the challenge and the role of the pioneer. Essential to these conditions is a set of values regarding the availability and properties of resources, the functioning of products and the impact upon the environment, now and well into the future, in Europe as well as globally. Furthermore, imagination, information and encouragement will be essential. This manual provides ideas, tools, examples and guidance for small and medium-sized enterprises (SMEs) that wish to develop products with the environment and the future in mind. It addresses product development and design with consideration for the whole life cycle of the product. This cycle is a process ranging from the identification and formulation of a need at the early stage of product development to the disposal of the product, after repeated usage, at the end of its life. A particular focus has been given to principles and criteria in the design of complex products.
