The Most Dangerous Game by Richard Connell or The Hounds of Zaroff | Alltime Bestseller Book From the Author of Books Like: The Sin of Monsieur Pettipon, and Other Humorous Tales / El malvado Zaroff / Delitto in mare / What Ho! Richard Connell 2021-01-01 From the Author of Books Like: 1. The Sin of Monsieur Pettipon, and Other Humorous Tales 2. El malvado Zaroff 3. Delitto in mare 4. What Ho! 5. The Sin of Monsieur Pettipon 6. Apes And Angels 7. From Observables to Unobservables in Science and Philosophy 8. The Mad Lover About the Book: The Most Dangerous Game, also published as The Hounds of Zaroff, is a short story by Richard Connell first published in Collier's magazine on January 19, 1924. It features a big-game hunter from New York who falls off a yacht and swims to an isolated island in the Caribbean where he is hunted by a Cossack aristocrat. The story is an adaptation of the big-game hunting safaris in Africa and South America that were fashionable among wealthy Americans in the 1920s. Big-game hunter Sanger Rainsford and his friend, Whitney, are traveling to the Amazon rainforest for a jaguar hunt. After a discussion about how they are "the hunters" instead of "the hunted," Whitney goes to bed and Rainsford hears gunshots. He climbs onto the yacht's rail and accidentally falls overboard, swimming to Ship-Trap Island, which is notorious for shipwrecks. On the island, he finds a palatial chateau inhabited by two Cossacks: the owner, General Zaroff, and his gigantic deaf-mute servant, Ivan. Zaroff, another big-game hunter, knows of Rainsford from his published account of hunting snow leopards in Tibet. Over dinner, the middle-aged Zaroff explains that although he has been hunting animals since he was a boy, he has decided that killing big-game has become boring for him, so after escaping the Russian Revolution he moved to Ship-Trap Island and set it up to trick ships into wrecking themselves on the jagged rocks that surround it. He takes the survivors captive and hunts them for sport, giving them food, clothing, a knife, and a three-hour head start, and using only a small-caliber pistol for himself. Any captives who can elude Zaroff, Ivan, and a pack of hunting dogs for three days are set free. He reveals that he has won every hunt to date. Captives are offered a choice between being hunted or turned over to Ivan, who once served as official knouter for The Great White Czar. Rainsford denounces the hunt as barbarism, but Zaroff replies by claiming that "life is for the strong." Realizing he has no way out, Rainsford reluctantly agrees to be hunted. During his head start, Rainsford lays an intricate trail in the forest and then climbs a tree. Zaroff finds him easily, but decides to play with him as a cat would with a mouse, standing underneath the tree Rainsford is hiding in, smoking a cigarette, and then abruptly departing. After the failed attempt at eluding Zaroff, Rainsford builds a Malay man-catcher, a weighted log attached to a trigger. This contraption injures Zaroff's shoulder, causing him to return home for the night, but he shouts his respect for the trap before departing. The next day Rainsford creates a Burmese tiger pit, which kills one of Zaroff's hounds. He sacrifices his knife and ties it to a sapling to make another trap, which kills Ivan when he stumbles into it. To escape Zaroff and his approaching hounds, Rainsford dives off a cliff into the sea; Zaroff, disappointed at Rainsford's apparent suicide, returns home. Zaroff smokes a pipe by his fireplace, but two issues keep him from the peace of mind: the difficulty of replacing Ivan and the uncertainty of whether Rainsford perished in his dive. About the Author : Richard Edward Connell, Jr. was an American author and journalist, best known for his short story "The Most Dangerous Game."

**The Joy Luck Club** Amy Tan 2006-09-21 "The Joy Luck Club is one of my favorite books. From the moment I first started reading it, I knew it was going to be incredible. For me, it was one of those once-in-a-lifetime reading experiences that you cherish forever. It inspired me as a writer and still remains hugely inspirational." —Kevin Kwan, author of *Crazy Rich Asians* Amy Tan's beloved, New York Times bestselling tale of mothers and daughters, now the focus of a new documentary *Amy Tan: Unintended Memoir* on Netflix Four mothers, four daughters, four families whose histories shift with the four winds depending on who's "saying" the stories. In 1949 four Chinese women, recent immigrants to San Francisco, begin meeting to eat dim sum, play mahjong, and talk. United in shared unspeakable loss and hope, they call themselves the Joy Luck Club. Rather than sink into tragedy, they choose to gather to raise their spirits and money. "To despair was to wish back for something already lost. Or to prolong what was already unbearable." Forty years later the stories and history continue. With wit and sensitivity, Amy Tan examines the sometimes painful, often tender, and always deep connection between mothers and daughters. As each woman reveals her secrets, trying to unravel the truth about her life, the strings become more tangled, more entwined. Mothers boast or despair over daughters, and daughters roll their eyes even as they feel the inextricable tightening of their matriarchal ties. Tan is an astute storyteller, enticing readers to immerse themselves into these lives of complexity and mystery.

**The Skeptics' Guide to the Universe** Dr. Steven Novella 2018-10-02 An all-encompassing guide to skeptical thinking from podcast host and academic neurologist at Yale University School of Medicine Steven Novella and his SGU co-hosts, which Richard Wiseman calls "the perfect primer for anyone who wants to separate fact from fiction." It is intimidating to realize that we live in a world overflowing with misinformation, bias, myths, deception, and flawed knowledge. There really are no ultimate authority figures—no one has the secret, and there is no place to look up the definitive answers to our questions (not even Google). Luckily, *The Skeptic's Guide to the Universe* is your map through this maze of modern life. Here Dr. Steven Novella—along with Bob Novella, Cara Santa Maria, Jay Novella, and Evan Bernstein—will explain the tenets of skeptical thinking and debunk some of the biggest scientific myths, fallacies, and conspiracy theories—from anti-vaccines to homeopathy, UFO sightings to N-rays. You'll learn the difference between science and pseudoscience, essential critical thinking skills, ways to discuss conspiracy theories with that crazy co-worker of yours, and how to combat sloppy reasoning, bad arguments, and superstitious thinking. So are you ready to join them on an epic scientific quest, one that has taken us from huddling in dark caves to setting foot on the moon? (Yes, we really did that.) DON'T PANIC! With *The Skeptic's Guide to the Universe*, we can do this together. "Thorough, informative, and enlightening, *The Skeptic's Guide to the Universe* inoculates you against the frailties and shortcomings of human cognition. If this book does not become required reading for us all, we may well see modern civilization unravel before our eyes." -- Neil deGrasse Tyson "In this age of real and fake information, your ability to reason, to think in scientifically skeptical fashion, is the most important skill you can have. Read *The Skeptics' Guide Universe*; get better at reasoning. And if this claim about the importance of reason is wrong, *The Skeptics' Guide* will help you figure that out, too." -- Bill Nye

**Lead From The Heart** Mark C. Crowley 2022-08-23 Leadership and engagement expert Mark C. Crowley shows how trading in the old business playbook for heart-led leadership strategies will create purpose-driven, dedicated employees and higher levels of performance. Revised and updated to address the needs of those managing Gen Z and millennial employees in addition to the latest global research on employee engagement. In this thoroughly revised and updated edition of his now classic book, visionary Mark C. Crowley provides the roadmap workplace leaders the world over are seeking: How to most successfully and sustainably inspire and manage other human beings in the post-pandemic era. · Nearly 50 million workers quit their jobs in the U.S. alone in 2021—a record number likely to be exceeded in 2022. · While we might imagine that an opportunity to earn greater pay is the key driver of this “Great Resignation,” research shows two-thirds of the reasons people leave jobs boil down to issues related to their engagement and overall well-being. · More specifically, people quit when they feel they aren’t valued, respected, appreciated, coached—or cared about personally—by their manager and organization. · Thanks in large part to the COVID pandemic and a global reset of what matters most to people in their lives, human beings have profoundly evolved in what they need and want in exchange for their work. · Consequently, a radical change in employee expectations demands that organizations and managers rapidly pivot by embracing leadership practices that match the moment. · The remedy to the Great Resignation is to adopt more humane ways of managing people knowing they inherently lead to infinitely greater engagement not to mention optimal employee performance. · In this new and updated version of his seminal and visionary book, Mark C. Crowley draws upon emerging medical and other scientific discoveries which prove it’s the heart, not the mind, that drives human motivation and achievement. · While we’ve long been led to believe that human beings are essentially rational beings, new research shows that feelings and emotions far more often motivate human behavior and what people care about most and commit themselves to in their lives. · In light of this breakthrough understanding, it’s become incumbent upon workplace managers to pay great attention to their employees’ emotional experience at work—far greater attention than any of us ever believed necessary. · Ironically, most of us were told the heart has no place in workplace management. In fact, most of us were taught that the heart acts like Kryptonite in leadership: it inherently undermines a manager’s effectiveness - and lowers performance. · What makes this book so remarkable is that it brilliantly contradicts all those traditional beliefs and proves why people naturally and instinctively respond to managers who care about them personally and support their deep human needs. · To be absolutely clear, there’s nothing soft or weak about the Lead From The Heart philosophy. Instead, it represents the future of workplace management and a roadmap to driving uncommon engagement, productivity and profitability when organizations around the world are wanting it most. · Rich with inspiring stories and illuminating research, this book proves that when you lead people with a greater balance of mind and heart, people naturally follow. And they also excel.

The Big Twitch Sean Dooley 2005-10-01 One man's quest to realise a boyhood dream and break a national record. Sean Dooley seems like a well adjusted, functioning member of society but beneath the respectable veneer he harbours a dark secret. He is a hard-core birdwatcher (aka twitcher). Sean takes a year off to try to break the Australian twitching record - he has to see more than 700 birds in twelve months. Travelling the length and breadth of Australia, he stops at nothing in search of this birdwatching Holy Grail, blowing his inheritance, his career prospects and any chance he has of finding a girlfriend. Part confessional, part travelogue, this is a true story about obsession. It's about seeking the meaning of life, trying to work out what normal is, and searching for the elusive Grey Falcon (the bird, not the car). Sean's story of how he followed his childhood dream of becoming a national champion is both inspiring and ridiculous. Could this be the most pathetic great achievement in Australian history?
