Straight Out of Barrio Hollywood Frank H. Cruz 2019-04-02 "This book offers the reader the best example of how a great idea can, eventually, create a revolution and change a whole community. I met Frank Cruz years ago on the streets of Los Angeles. He witnessed the Latino wave from its beginnings. Frank is a pioneer, a creator, and a fantastic journalist. I doubt he ever expected to be writing his own story. But, if you want to understand us, read this book." Jorge Ramos, Journalist and Author "Frank Cruz has cracked open that unmarked box tucked away in America's attic. So afraid to reveal its contents, we forget the jewels it hides. Through his story, Frank lets us peek into our history. A diverse, complicated people with a textured history. Grit, faith and ingenuity -- we shouldn't hide that. Bravo, Frank." Xavier Becerra, Attorney General of California Latino Public Broadcasting is dear to my heart and its legitimization of our stories exists because of the guidance and expertise of my compadre Frank Cruz. His wisdom and leadership developed as he broke through barriers in multiple industries and ultimately rose to the top in each of his careers, as he has recounted in this memoir. Through his own story, Frank continues to teach, inspire, and give voice to the Latino experience. Edward James Olmos, Actor, Director, Producer, and Activist "Frank Cruz has lived a life of accomplishment and contributions. He paved an untrodden path of Latino journalistic professionalism and was courageously and determinedly true to his vision. In so doing, he touched many lives and set a stellar example." Henry Cisneros, former HUD Secretary and San Antonio Mayor "This important story is very well told and full of good anecdotes, reflections and advice. Frank Cruz's graduate work in history, experience in journalism, and ability to make a point by telling a compelling story, are all put to good use in telling his own unique story which will inform and inspire." Felix Gutierrez, Journalism Professor Emeritus, USC

Holy Halls Hb Christof Vieweg 2021-03 - A thrilling photographic account of the treasure trove of cars kept by the Mercedes-Benz Museum in Stuttgart that are not currently on display to the public. The Mercedes-Benz Museum in Stuttgart is one of the largest and most visited industrial museums in the world. But the 160 or so automobiles on display are only a small part of the shiny chrome treasures that form the Mercedes-Benz Classic vehicle collection. Another 1,000 historical models are 'parked' in secret places outside Stuttgart - these secret places are called the 'Holy Halls'. This collection is the treasure trove of the brand. It has existed since 1923 and offers a comprehensive overview of the model history of Mercedes-Benz. Cars with special technology and equipment are stored here, as are the silver arrows of Caracciola, Lang and Fangio, the Pope's carriages, the state cars of the young Federal Republic of Germany or Mercedes models that became collectors' items due to their prominent previous owners. Some of these exhibits are well protected and waiting in special wooden boxes for their next use at exhibitions, fairs, events or classic car races. Others stand next to each other as silent witnesses of the past. Each time a model is modified, the collection is extended by the last vehicle of the discontinued series, which experts believe will be one of tomorrow's classic cars. The 'Holy Halls' are not open to the public; enquiries from editorial offices and TV teams have often been rejected. But, during the years 2016 to 2018, almost all the vehicles of the Mercedes collection were photographed. Thus, a unique photographic collection was created, the automobile history from more than ten decades; many of the previously unpublished photographs are exclusively available here in this book. In addition, Mercedes-Benz Classic agreed to open the 'Holy Halls' for an external photo team and provide information about the car models stored there. For the first time, it has been possible to produce a fascinating illustrated book with panoramic and detailed shots from the 'halls', and lively photo reports on cars that tell stories - from the first Benz motor car to the latest Formula 1 racing car. Equally thrilling are the stories of the unique specimens and prototypes that are stored in the 'Holy Halls': Mercedes models that never went into production are presented for the first time. The stories about the selected automobiles of the vehicle collection are supplemented by historical recordings from the Mercedes-Benz Classic archive.

Bruno Sacco Nik Greene 2020-09 When Bruno Sacco walked through the doors on his first day at Mercedes-Benz on 13 January 1958, it is highly unlikely that his Daimler-Benz colleagues could ever imagine that this nervous young man would not only revolutionize design but would change the way design and innovation connected with brand tradition forever. Bruno Sacco is one of the most influential automotive designers of the late twentieth century; many models launched during his era now characterize the Mercedes-Benz brand. When Nik Greene asked Bruno Sacco to assist with this book, he replied humbly "No-one designs a car alone, and more to the point, I never, for one minute, wanted to. From the moment I became Head of Design, I put down my pens and became a manager of minds." With over 330 photographs and illustrations, this book includes an overview of the early days of functional vehicle design and the influence of safety on design evolution. The protagonists of Daimler-Benz design from Hermann Ahrens to Paul Bracq are covered. Design philosophy and innovation under Bruno Sacco is discussed along with the Sacco-designed cars and, finally, the Bruno Sacco legacy.
